Summary

Results-oriented Software Engineer with hands-on experience in backend, web, and mobile application development. Specialized in ASP.NET Core, RESTful APIs, SQL Server, mobile applications (Android Native & Flutter) and enterprise CMS platforms such as Umbraco.. Proven ability to deliver scalable, high-performance solutions and lead projects end-to-end.

Experience

Software Engineer — Technyx Systems (Feb 2024 – Present)

- Develop and maintain scalable web applications using ASP.NET Core, MVC, Razor Pages, and RESTful APIs.
- Design and optimize APIs for performance, reliability, and maintainability.
- Implement clean architecture principles and enforce SOLID practices across projects.
- Conduct code reviews to ensure code quality, performance, and adherence to best practices.
- Design efficient and normalized database schemas in SQL Server, focusing on performance tuning and query optimization.
- Implement authentication and authorization mechanisms (JWT, OAuth, Identity).
- Lead end-to-end development lifecycle, from requirement analysis to deployment and maintenance.
- Manage CI/CD pipelines and cloud deployments using Microsoft Azure.
- Develop and maintain microservices-based architectures where appropriate.
- Troubleshoot and resolve production issues with a focus on system stability and uptime.
- Collaborate with cross-functional teams including designers, QA, and product stakeholders.
- Develop cross-platform and native mobile applications using Flutter and Android Native.
- Customize and extend CMS-based solutions using Umbraco.
- Containerized applications using Docker to ensure consistent deployment across environments.

Education

BS in Computer Science — University of Karachi (UBIT)

Graduated: December 2024, CGPA : 3.3

Skills

ASP.NET Core • Web API • SQL Server • Umbraco • Microsoft Azure • CI/CD • Android Native • Flutter • SOLID • Clean Architecture • Agile • Docker
